Creating a SoulCollage journal from an altered vintage book and adding SoulCollage pages from images, pictures, and a variety of ephemera is an amazing experience! Self-nourishment, investigation of who you are and who you wish to become, and exploration of emotional archeology are just a few of the celebrations to experience through artistic journaling. Come join our SoulCollage community for a few sessions or all twenty! Jane Hosey Stern is a certified SoulCollage facilitator and has been a counselor for 30 years.

Tools For Life

Thursday, January 7, 2010, 5:30 to 7:00pm \$75

You will investigate your world and create a mixed media piece of assemblage art that illustrates your discoveries when you embellish an old (but functional) toolbox that features your "tools for life". The class will include an expansion of ideas, meaningful discussions, and thought provoking questions about what you feel are important traits, skills, experiences and goals to strive for in life. You will carry home not only an assemblage art project, but the feeling of confidence that comes from inner reflection about your world and the "tools" that make the journey remarkable. The toolboxes also make fabulous gifts for the graduates in your life!

Bottle Cap Jewelry

Thursday, January 21, 2010, 5:30 to 7:00pm \$40

Using vintage bottle caps, beads and other wonderful embellishments, you will create a bracelet, a necklace & a pair of earrings that will truly be one of a kind! Choose from our favorite caps and/or bring your own special collection.

Funky Bulletin Board & Tacks

Thursday, January 28, 2010, 5:30 to 7:00pm \$45

You'll transform a large bulletin board into a "funkified" wall piece that will spice up your kitchen, bedroom, or work space! In addition, you'll make a cool funky tack set to start the organizational whirlwind that will blow all your bits and pieces onto your new "wall art with a purpose".

You've Been Framed... Words to Live By!

Thursday, February 11, 2010, 5:30 to 7:00pm \$50

We'll take a framed picture and revamp the innards with great images as a background for you to adhere letters from game pieces in order to form your favorite brief quote. Paint and cool objects will transform the wood frame into it's own work of art! You'll adore it in your home or on your office wall.

Salvaged Cigar Box Clock

Thursday, March 4, 2010, 5:30 to 7:00pm \$45

Imagine this: A woman stumbles onto a cigar box under a stack of magazines in the cellar. By the light of the moon, she adds pieces of wonderful things from her life and clock parts and the pieces spring to life and configure themselves into a clock for her castle. Come and make one. It's time.

Call us about a private Art Class party!

stuff has always been about people, not product. our art classes continue in that tradition. our creative classes are a journey into the process of making art. if you ask any artist what inspires them to create, you will get an endless stream of answers. art surrounds us. we find art in the simplest of abstract paintings and in the most complex of assemblage pieces. but what we often seek is the understanding of the inspiration and the process artists capture . . . that tangible quality that gives it life . . . that makes art resonate in your thoughts & emotions and creates personal energy.
